Document Control

Document Title	Aventra Construction Professional House Checklist
Version	1.0
Prepared For	Aventra Construction
Founder & CEO	Ajai Adarsan K
Purpose	Site quality inspection, documentation and professional client handover
Social Media	Instagram: @aventra_construction YouTube: @AventraConstructions

How to use this checklist

Use this checklist stage by stage at site. Mark the Tick box if the item is satisfactory, mark the Cross box if it needs correction, and write clear remarks before moving to the next stage. Engineer signature is provided on each checklist page. The final handover page includes both engineer and client signatures.

Checklist Index

No.	Checklist Section
1	Pre-Construction Checklist
2	Site Mobilization Checklist
3	Setting Out and Layout Checklist
4	Excavation Checklist
5	PCC Checklist
6	Footing Reinforcement Checklist
7	Footing Concrete Checklist
8	Plinth Beam Checklist
9	Backfilling and Compaction Checklist
10	Column Reinforcement Checklist
11	Column Shuttering and Concrete Checklist
12	Beam Reinforcement Checklist
13	Slab Reinforcement Checklist
14	Slab Concrete Pour Checklist
15	Staircase Checklist
16	Brickwork / Blockwork Checklist
17	Lintel and Sunshade Checklist
18	Electrical Conduit Checklist
19	Plumbing Rough-in Checklist
20	Toilet Waterproofing Checklist
21	Terrace Waterproofing Checklist
22	Internal Plastering Checklist
23	External Plastering Checklist
24	Flooring Checklist
25	Kitchen Counter Checklist
26	Door Frame and Shutter Checklist
27	Window / UPVC / Aluminium Checklist
28	Painting Checklist
29	False Ceiling Checklist
30	External Development Checklist
31	Rainwater Harvesting Checklist
32	Material Receiving Checklist
33	Concrete Cube Test Register
34	Daily Site Progress Report
35	Client Snag List
36	Final Handover Checklist

Pre-Construction Checklist

Checklist	Tick	Cross	Remarks
Land ownership documents verified	☐	☐	
Latest EC, patta / chitta / survey details reviewed	☐	☐	
Site boundary and dimensions physically measured	☐	☐	
Soil investigation / SBC report completed	☐	☐	
Architectural drawing approved by client	☐	☐	
Structural drawing issued for construction	☐	☐	
Plumbing and electrical layout coordinated	☐	☐	
Budget, scope and exclusions clearly recorded	☐	☐	
Material specification sheet approved	☐	☐	
Construction agreement and payment stages finalized	☐	☐	
Temporary water and power arrangements planned	☐	☐	
Site safety and neighbour protection plan prepared	☐	☐	

Engineer Signature:

Site Mobilization Checklist

Checklist	Tick	Cross	Remarks
Site cleaning completed	☐	☐	
Temporary fencing / barricading provided	☐	☐	
Site board fixed with contact details	☐	☐	
Material storage area identified	☐	☐	
Cement storage protected from moisture	☐	☐	
Steel storage raised above ground level	☐	☐	
Temporary labour facility planned safely	☐	☐	
First-aid kit available at site	☐	☐	
Fire extinguisher available where required	☐	☐	
Site access and vehicle movement checked	☐	☐	

Engineer Signature:

Setting Out and Layout Checklist

Checklist	Tick	Cross	Remarks
Bench mark level fixed and protected	☐	☐	
Grid lines marked correctly	☐	☐	
Plot setbacks checked as per approved drawing	☐	☐	
Diagonal measurements verified	☐	☐	
Column center points marked	☐	☐	
Excavation line marking approved	☐	☐	
Road level and plinth level coordinated	☐	☐	
Client / engineer approval taken before excavation	☐	☐	

Engineer Signature:

Excavation Checklist

Checklist	Tick	Cross	Remarks
Excavation length, width and depth checked	☐	☐	
Side slopes / shoring provided where required	☐	☐	
Loose soil removed from bottom	☐	☐	
Water seepage controlled	☐	☐	
Excavated material stored safely	☐	☐	
Bottom level verified with instrument	☐	☐	
Foundation founding stratum visually checked	☐	☐	
No over-excavation left without correction	☐	☐	
Engineer approval taken before PCC	☐	☐	

Engineer Signature:

PCC Checklist

Checklist	Tick	Cross	Remarks
Subgrade compacted and cleaned	☐	☐	
PCC thickness checked	☐	☐	
PCC mix / grade verified	☐	☐	
PCC level maintained	☐	☐	
PCC projected beyond footing as required	☐	☐	
No soil contamination during placing	☐	☐	
Surface finished level for reinforcement placement	☐	☐	
Curing started after setting	☐	☐	

Engineer Signature:

Footing Reinforcement Checklist

Checklist	Tick	Cross	Remarks
Bar diameter verified with drawing	☐	☐	
Bar spacing checked both directions	☐	☐	
Main and distribution steel placed correctly	☐	☐	
Development length / anchorage checked	☐	☐	
Column starter bars positioned accurately	☐	☐	
Cover blocks provided below reinforcement	☐	☐	
No rust, mud or oil on steel	☐	☐	
Chairs / supports provided if required	☐	☐	
Engineer approval before concrete	☐	☐	

Engineer Signature:

Footing Concrete Checklist

Checklist	Tick	Cross	Remarks
Concrete grade confirmed before pour	☐	☐	
Formwork dimensions checked	☐	☐	
Slump / workability checked	☐	☐	
Vibrator available and used properly	☐	☐	
Concrete placed without segregation	☐	☐	
Top level of footing maintained	☐	☐	
Cube samples taken if required	☐	☐	
Curing started and maintained	☐	☐	
Pour record documented	☐	☐	

Engineer Signature:

Plinth Beam Checklist

Checklist	Tick	Cross	Remarks
Excavation around beam cleaned	☐	☐	
Beam size checked as per drawing	☐	☐	
Longitudinal bars and stirrups verified	☐	☐	
Stirrup spacing checked near supports	☐	☐	
Cover blocks provided on sides and bottom	☐	☐	
Formwork line and level checked	☐	☐	
Service sleeves provided if required	☐	☐	
Concrete poured and compacted properly	☐	☐	
Curing maintained	☐	☐	

Engineer Signature:

Backfilling and Compaction Checklist

Checklist	Tick	Cross	Remarks
Debris removed before filling	☐	☐	
Approved filling material used	☐	☐	
Filling done in layers	☐	☐	
Each layer compacted properly	☐	☐	
Watering done during compaction	☐	☐	
Anti-termite treatment completed if specified	☐	☐	
Plinth level achieved as per drawing	☐	☐	
Final surface ready for PCC / flooring base	☐	☐	

Engineer Signature:

Column Reinforcement Checklist

Checklist	Tick	Cross	Remarks
Column bar diameter verified	☐	☐	
Number of bars checked	☐	☐	
Tie spacing checked as per drawing	☐	☐	
Lap length and lap location verified	☐	☐	
Column alignment from grid checked	☐	☐	
Cover blocks provided on all sides	☐	☐	
Starter bars cleaned before shuttering	☐	☐	
Electrical conduits not cutting reinforcement	☐	☐	
Engineer approval before shutter closing	☐	☐	

Engineer Signature:

Column Shuttering and Concrete Checklist

Checklist	Tick	Cross	Remarks
Column size checked after shuttering	☐	☐	
Verticality checked by plumb / level	☐	☐	
Shuttering joints sealed to avoid slurry leakage	☐	☐	
Concrete grade confirmed	☐	☐	
Concrete poured in layers	☐	☐	
Vibrator used without disturbing steel	☐	☐	
Column top level maintained	☐	☐	
Shuttering removed after sufficient time	☐	☐	
Curing started immediately	☐	☐	

Engineer Signature:

Beam Reinforcement Checklist

Checklist	Tick	Cross	Remarks
Beam depth and width verified	☐	☐	
Bottom bars placed as per drawing	☐	☐	
Top bars and extra bars checked	☐	☐	
Stirrups diameter and spacing verified	☐	☐	
Anchorage into columns checked	☐	☐	
Cover blocks provided	☐	☐	
Openings / sleeves coordinated	☐	☐	
No unwanted cutting of bars	☐	☐	
Engineer approval before concreting	☐	☐	

Engineer Signature:

Slab Reinforcement Checklist

Checklist	Tick	Cross	Remarks
Slab thickness marked and checked	☐	☐	
Bottom reinforcement spacing checked	☐	☐	
Top reinforcement / crank bars checked	☐	☐	
Distribution bars provided	☐	☐	
Chairs provided for top steel	☐	☐	
Cover blocks placed properly	☐	☐	
Electrical conduits fixed before pour	☐	☐	
Plumbing sleeves fixed before pour	☐	☐	
Sunken slab levels checked	☐	☐	
Final inspection before concrete completed	☐	☐	

Engineer Signature:

Slab Concrete Pour Checklist

Checklist	Tick	Cross	Remarks
Shuttering support checked before pour	☐	☐	
Concrete grade and quantity confirmed	☐	☐	
Pour sequence planned	☐	☐	
Vibrator and backup tools available	☐	☐	
Concrete level maintained using level markers	☐	☐	
No honeycombing or segregation	☐	☐	
Finishing completed without excess water	☐	☐	
Cube samples taken if required	☐	☐	
Curing pond / wet curing started	☐	☐	
De-shuttering schedule followed	☐	☐	

Engineer Signature:

Staircase Checklist

Checklist	Tick	Cross	Remarks
Waist slab thickness checked	☐	☐	
Riser and tread dimensions verified	☐	☐	
Stair reinforcement checked	☐	☐	
Landing level checked	☐	☐	
Handrail / wall support provision planned	☐	☐	
Concrete finished to correct profile	☐	☐	
Curing maintained	☐	☐	
No dimensional variation in steps	☐	☐	

Engineer Signature:

Brickwork / Blockwork Checklist

Checklist	Tick	Cross	Remarks
Brick / block quality checked	☐	☐	
Bricks wetted before laying if required	☐	☐	
Mortar ratio verified	☐	☐	
Line, level and plumb maintained	☐	☐	
Joint thickness maintained uniformly	☐	☐	
Door and window openings checked	☐	☐	
Toothing / bonding at junctions ensured	☐	☐	
Lintel level marked correctly	☐	☐	
Curing maintained for masonry	☐	☐	
Vertical joints fully filled	☐	☐	

Engineer Signature:

Lintel and Sunshade Checklist

Checklist	Tick	Cross	Remarks
Lintel level checked	☐	☐	
Bearing length on masonry verified	☐	☐	
Reinforcement diameter and spacing checked	☐	☐	
Sunshade projection checked	☐	☐	
Shuttering slope and alignment verified	☐	☐	
Concrete grade confirmed	☐	☐	
Drip groove provision checked	☐	☐	
Curing maintained	☐	☐	

Engineer Signature:

Electrical Conduit Checklist

Checklist	Tick	Cross	Remarks
Conduit route coordinated with drawing	☐	☐	
Switch box height checked	☐	☐	
Junction box locations verified	☐	☐	
Conduit bends not excessive	☐	☐	
Conduits tied properly before concrete	☐	☐	
Separate routes for power and low voltage where required	☐	☐	
DB location approved	☐	☐	
No conduit blockage after concrete	☐	☐	
Photos taken before concealment	☐	☐	

Engineer Signature:

Plumbing Rough-in Checklist

Checklist	Tick	Cross	Remarks
Pipe material and diameter verified	☐	☐	
Toilet and kitchen points checked	☐	☐	
Slope maintained for waste lines	☐	☐	
Sleeves provided in beams / slabs where needed	☐	☐	
Pressure test completed for water lines	☐	☐	
Leakage test completed before closing	☐	☐	
Floor trap location and level checked	☐	☐	
Vent pipe provision checked	☐	☐	
Photos taken before concealment	☐	☐	

Engineer Signature:

Toilet Waterproofing Checklist

Checklist	Tick	Cross	Remarks
Surface cleaned and prepared	☐	☐	
Pipe sleeves sealed properly	☐	☐	
Corner coving provided	☐	☐	
Waterproofing material approved	☐	☐	
Coating thickness / layers completed	☐	☐	
Wall upturn height maintained	☐	☐	
Ponding test conducted minimum 24 hours	☐	☐	
Leakage inspection completed	☐	☐	
Protection screed completed after approval	☐	☐	

Engineer Signature:

Terrace Waterproofing Checklist

Checklist	Tick	Cross	Remarks
Terrace surface cleaned	☐	☐	
Slope towards rainwater outlet checked	☐	☐	
Cracks and joints treated	☐	☐	
Waterproofing system applied as specified	☐	☐	
Parapet junction treated	☐	☐	
Drain outlets protected	☐	☐	
Pond test / water test completed	☐	☐	
Protection layer completed	☐	☐	
Final slope rechecked	☐	☐	

Engineer Signature:

Internal Plastering Checklist

Checklist	Tick	Cross	Remarks
Masonry surface cleaned and wetted	☐	☐	
Electrical and plumbing chasing completed	☐	☐	
Chicken mesh fixed at junctions where required	☐	☐	
Mortar ratio verified	☐	☐	
Level pads / dots provided	☐	☐	
Corners and edges straight	☐	☐	
Surface finished uniformly	☐	☐	
Curing maintained	☐	☐	
No hollow patches after setting	☐	☐	

Engineer Signature:

External Plastering Checklist

Checklist	Tick	Cross	Remarks
Surface cleaned and hacked where required	☐	☐	
Scaffolding safety checked	☐	☐	
Chicken mesh provided at RCC-masonry junctions	☐	☐	
Mortar ratio verified	☐	☐	
Line and level maintained	☐	☐	
Drip grooves provided	☐	☐	
External corners aligned	☐	☐	
Curing maintained properly	☐	☐	
Cracks monitored and rectified	☐	☐	

Engineer Signature:

Flooring Checklist

Checklist	Tick	Cross	Remarks
Base level checked before flooring	☐	☐	
Tile / stone material approved	☐	☐	
Layout and pattern confirmed	☐	☐	
Adhesive / mortar bed as specified	☐	☐	
Joint width uniform	☐	☐	
Floor slope checked in wet areas	☐	☐	
Hollowness checked by tapping	☐	☐	
Skirting alignment checked	☐	☐	
Tile protection provided after laying	☐	☐	
Final cleaning completed	☐	☐	

Engineer Signature:

Kitchen Counter Checklist

Checklist	Tick	Cross	Remarks
Counter height checked	☐	☐	
Granite / slab quality approved	☐	☐	
Sink cut-out location verified	☐	☐	
Plumbing points coordinated	☐	☐	
Electrical points above counter checked	☐	☐	
Tile dado alignment checked	☐	☐	
Counter slope towards sink checked	☐	☐	
Edges finished safely	☐	☐	
Sealant applied around sink and wall junction	☐	☐	

Engineer Signature:

Door Frame and Shutter Checklist

Checklist	Tick	Cross	Remarks
Frame size verified	☐	☐	
Frame line, level and plumb checked	☐	☐	
Holdfast / anchor fixing completed	☐	☐	
Gap around frame filled properly	☐	☐	
Shutter size and finish checked	☐	☐	
Hinges and hardware fixed correctly	☐	☐	
Door operation smooth	☐	☐	
Lock alignment checked	☐	☐	
Polish / paint protection ensured	☐	☐	

Engineer Signature:

Window / UPVC / Aluminium Checklist

Checklist	Tick	Cross	Remarks
Window opening size verified	☐	☐	
Frame alignment checked	☐	☐	
Anchor fixing completed	☐	☐	
Glass thickness / type verified	☐	☐	
Drain slot provision checked	☐	☐	
Sealant applied properly	☐	☐	
Shutter sliding / operation smooth	☐	☐	
Mosquito mesh provision checked if specified	☐	☐	
Water leakage test completed where required	☐	☐	

Engineer Signature:

Painting Checklist

Checklist	Tick	Cross	Remarks
Surface dryness checked	☐	☐	
Putty / primer system approved	☐	☐	
Sanding completed properly	☐	☐	
Primer coat applied uniformly	☐	☐	
First coat completed	☐	☐	
Final coat shade verified	☐	☐	
Edges and corners finished neatly	☐	☐	
No patch marks or roller marks	☐	☐	
Doors, windows and floors protected	☐	☐	
Touch-up completed after snagging	☐	☐	

Engineer Signature:

False Ceiling Checklist

Checklist	Tick	Cross	Remarks
Ceiling level marked and approved	☐	☐	
Hanger spacing checked	☐	☐	
Frame alignment verified	☐	☐	
Electrical points coordinated	☐	☐	
Access panel provided where required	☐	☐	
Board joints staggered and finished	☐	☐	
Corners finished neatly	☐	☐	
Final level and smoothness checked	☐	☐	

Engineer Signature:

External Development Checklist

Checklist	Tick	Cross	Remarks
Compound wall alignment checked	☐	☐	
Gate size and swing verified	☐	☐	
Driveway slope checked	☐	☐	
Rainwater drainage planned	☐	☐	
Paver / flooring level checked	☐	☐	
Septic tank / sump covers finished safely	☐	☐	
External lighting points checked	☐	☐	
Landscape / softscape area prepared	☐	☐	

Engineer Signature:

Rainwater Harvesting Checklist

Checklist	Tick	Cross	Remarks
RWH pit location approved	☐	☐	
Filter chamber provided	☐	☐	
Pipe routing from terrace checked	☐	☐	
Silt trap provision made	☐	☐	
Recharge pit depth and filling material checked	☐	☐	
Overflow arrangement provided	☐	☐	
Inspection cover provided	☐	☐	
System cleaned before handover	☐	☐	

Engineer Signature:

Material Receiving Checklist

Checklist	Tick	Cross	Remarks
Material invoice / delivery challan collected	☐	☐	
Quantity physically verified	☐	☐	
Material brand and grade checked	☐	☐	
Damaged material separated	☐	☐	
Cement manufacturing date checked	☐	☐	
Steel diameter and weight checked	☐	☐	
Sand / aggregate quality visually checked	☐	☐	
Tiles / sanitary items checked for batch and shade	☐	☐	
Material stored safely after receipt	☐	☐	

Engineer Signature:

Concrete Cube Test Register

Checklist	Tick	Cross	Remarks
Pour date recorded	☐	☐	
Concrete grade recorded	☐	☐	
Location of pour recorded	☐	☐	
Cube ID marked properly	☐	☐	
Number of cubes taken recorded	☐	☐	
7-day test result recorded if applicable	☐	☐	
28-day test result recorded	☐	☐	
Test report filed	☐	☐	
Corrective action noted if result is low	☐	☐	

Engineer Signature:

Daily Site Progress Report

Checklist	Tick	Cross	Remarks
Date and weather recorded	☐	☐	
Labour strength recorded	☐	☐	
Work completed today noted	☐	☐	
Material received today noted	☐	☐	
Machinery used recorded	☐	☐	
Safety observations recorded	☐	☐	
Issues / delays mentioned	☐	☐	
Next day work plan written	☐	☐	
Engineer signature completed	☐	☐	

Engineer Signature:

Client Snag List

Checklist	Tick	Cross	Remarks
Room-wise snag inspection completed	☐	☐	
Electrical points tested	☐	☐	
Plumbing fixtures tested	☐	☐	
Paint touch-ups listed	☐	☐	
Door and window operation checked	☐	☐	
Flooring hollowness / chips checked	☐	☐	
Waterproofing leakage checked	☐	☐	
Cleaning status checked	☐	☐	
Snag closure date recorded	☐	☐	

Engineer Signature:

Final Handover Checklist

Checklist	Tick	Cross	Remarks
Final cleaning completed	☐	☐	
All snags rectified	☐	☐	
Keys handed over	☐	☐	
Electrical DB labelled	☐	☐	
Plumbing valves explained	☐	☐	
Warranty cards handed over	☐	☐	
Approved drawings / documents handed over	☐	☐	
Maintenance instructions explained	☐	☐	
Client acceptance taken	☐	☐	

Engineer Signature: _____ Client Signature: _____
